- **Location:** Burleigh Boardroom (Star L2)

INVITATION TO "BIG IDEAS" BLUE SKY WORKSHOP

Strengthening Communication's Voice in Inter-Disciplinary Dialogue around the Future of Cities

Co-Sponsored by:
Health Communication, Mobile Communication, Popular Media & Culture

The U.N. predicts that two thirds of the world's population will live in cities by 2050. This *Blue Sky* workshop convenes colleagues from across ICA to articulate contributions of communication research to how cities' diverse stakeholders understand and address enduring and emerging challenges. In doing so, participants will identify mechanisms for this community of scholars to regularly share and partner in cutting-edge research, but also facilitate the discipline's meaningful engagement with urban communities globally.

International Communication Association

If interested in attending, please complete the registration form you can find via the QR code. Please do so *especially* if you cannot attend in person, so co-organizers can follow up with you in a timely way.
